GENERAL INSTRUCTIONS
MIXING
Thoroughly mix Imtrade CC-77 Plant Growth Regulator with hard or soft water at the rates shown, then add wetter. The products should be applied only to vigorous vines growing under good conditions and capable of carrying an increased crop. This applies particularly to Muscat Gordo Blanco. As many factors affect yield of grapes, the use of Imtrade CC-77 Plant Growth Regulator may not always result in increased fruit production.

COMPATIBILITY
DO NOT mix Imtrade CC-77 Plant Growth Regulator with other chemicals except non-ionic wetter, unless compatibility has been tested.

PROTECTION OF CROPS, NATIVE AND OTHER NON-TARGET CROPS
DO NOT apply under weather conditions, or from spraying equipment, that may cause spray drift onto nearby susceptible plants/crops, cropping lands or pastures.

PROTECTION OF WIDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT
DO NOT contaminate dams, rivers, drains or streams with the chemicals or used container.

POISON
KEEP OUT OF REACH OF CHILDREN
