**Fungicide Resistance Warning**

<b>GROUP</b>	<b>Y</b>	<b>FUNGICIDE</b>
--------------	----------	------------------

For fungicide resistance management, Thiram Turf Fungicide is a Group Y Fungicide. Some naturally occurring individual fungi resistant to Thiram Turf Fungicide and other Group Y Fungicides may exist through normal genetic variability in any Fungal population. The resistant individuals can eventually dominate the fungal population if these fungicides are used repeatedly. These resistant fungi will not be controlled by Thiram Turf Fungicide or other Group Y Fungicides. Since the occurrence of resistant fungi is difficult to detect prior to use, ChemAg Pty. Ltd. accepts no liability for any losses that may result from the failure of Thiram Turf Fungicide to control resistant weeds.
