

STORAGE AND DISPOSAL

Store in a locked room or place away from children, animals, food, feedstuffs, seed and fertilisers. Store in the closed, original container in a cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight. Triple -rinse containers before disposal. Add rinsings to dip tank. **DO NOT** dispose of undiluted chemicals on site. If recycling, replace cap and return clean container to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. **DO NOT** burn empty containers or product.

DIP DISPOSAL

DO NOT dispose of spent dip on site. Spent dip waste must be transported to a facility that can lawfully receive it.

SAFETY DIRECTIONS

Poisonous if absorbed by skin contact or inhaled or swallowed. Repeated minor exposure may have a cumulative poisoning effect. Will damage eyes and skin. Will irritate the nose and throat. Avoid contact with eyes and skin. **DO NOT** inhale vapour or spray mist. When opening the container, preparing spray and using the prepared spray [open cab] wear chemical resistant clothing buttoned to the neck and wrist and washable hat, elbow-length chemical resistant gloves and full facepiece respirator with combined dust and gas cartridge. When using the prepared spray [closed cab fitted with charcoal filters] wear cotton overalls buttoned to the neck and wrist (or equivalent clothing). After use and before eating drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves and respirator (if rubber, wash with detergent and warm water) and contaminated clothing.

FIRST AID

If swallowed, splashed on skin or in eyes, or inhaled, contact a Poisons Information Centre (Phone Australia 13 11 26) or doctor at once. Remove any contaminated clothing and wash skin thoroughly. If swallowed, activated charcoal may be advised. Give atropine if instructed.

Additional GHS Hazard & Precautionary Statements

•Combustible liquid; •Fatal if swallowed; •Causes skin irritation; •Causes eye irritation; •Very toxic to aquatic life with long lasting effects; •Keep away from heat, sparks, open flames and hot surfaces – No smoking; •**DO NOT** get on clothing; •**DO NOT** eat, drink or smoke when using this product; •Use only outdoors or in a well-ventilated area; •**IF SWALLOWED:** Rinse mouth, do **NOT** induce vomiting; •**IF ON SKIN:** Wash with plenty of soap and water; •**IF INHALED:** Remove victim to fresh air and keep at rest in a position comfortable for breathing; •**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing; •If skin irritation occurs: Get medical advice; •If eye irritation persists: Get medical advice; •In case of fire, use carbon dioxide, dry chemical, foam, water fog;

DIRECTIONS FOR USE

RESTRAINTS:

DO NOT dispose of spent dip on site. Spent dip waste must be transported to a facility that can lawfully receive it.

CROP	PEST	STATE	RATE	CRITICAL COMMENTS
Aloe Vera planting material	Soil borne plant parasitic nematodes	Qld, NSW, WA only	1L/100L water	Air dry or cure prepared pups for 48 hours prior to treatment. Immerse unpared pups in Imtrade Assassinator 400 Insecticide dip solution for 30 minutes. Allow to drain and dry. Wear elbow-length chemical resistant gloves when dipping and when handling dipped material.
Banana planting material	Soil borne plant parasitic nematodes	Qld, NSW, WA only	100 mL/100L water	Pare the planting material to remove all dead tissue. Immerse planting material in Imtrade Assassinator 400 Insecticide dip solution for 10 minutes. Allow to drain and dry. Wear elbow-length chemical resistant gloves when dipping and when handling dipped material.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

THIS PRODUCT IS TOO HAZARDOUS FOR USE IN THE HOME GARDEN.

WITHHOLDING PERIOD

BANANA AND ALOE VERA PLANTING MATERIAL: NOT REQUIRED WHEN USED AS DIRECTED

Export of Treated Produce

Growers should note that MRLs or import tolerances **DO NOT** exist in all markets for edible produce treated with Imtrade Assassinator 400 Insecticide. If you are growing edible produce for export, please check with Imtrade Australia Pty Ltd for the latest information on MRLs and import tolerances before using Imtrade Assassinator 400 Insecticide.

GENERAL INSTRUCTIONS

Mixing

Add the required quantity of Imtrade Assassinator 400 Insecticide to the dip vat full of water while stirring. Agitate before use if mixture has been left overnight.

Accelerated biodegradation

As with other soil insecticides the effectiveness of this product may be reduced as a result of the soil microfloras developing the ability to biodegrade it at an accelerated rate, particularly after repeated application. If unacceptable control occurs, immediately contact your Imtrade Australia representative for detailed information. Imtrade Assassinator 400 Insecticide should not be used where the user suspects the soil microfloras have developed the ability to degrade it at an accelerated rate.

Imtrade Australia Pty Ltd accepts no responsibility, and intends by this statement to exclude liability, if the effectiveness of Imtrade Assassinator 400 Insecticide is reduced or nullified as a result of accelerated biodegradation, since biodegradation is accelerated by soil characteristics which occur naturally and are beyond Imtrade Australia's control.

INSECTICIDE RESISTANCE WARNING

GROUP 1B INSECTICIDE

For insecticide resistance management Imtrade Assassinator 400 Insecticide is a Group **1B** Insecticide. Some naturally occurring insect biotypes resistant to Imtrade Assassinator 400 Insecticide and other Group **1B** Insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Imtrade Assassinator 400 Insecticide or other Group **1B** Insecticides are used repeatedly. The effectiveness of Imtrade Assassinator 400 Insecticide on resistant individuals could be significantly reduced. Since the occurrence of resistant individuals is difficult to detect prior to use, Imtrade Australia Pty Ltd accepts no liability for any losses that may result from the failure of Imtrade Assassinator 400 Insecticide to control resistant insects. Imtrade Assassinator 400 Insecticide may be subject to specific resistance management strategies. For further information contact your local suppliers or Imtrade Australia Pty Ltd representative.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Dangerous to fish and other aquatic invertebrates.

DO NOT contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL

Store in a locked room or place away from children, animals, food, feedstuffs, seed and fertilisers. Store in the closed, original container in a cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight. Triple -rinse containers before disposal. Add rinsings to dip tank. **DO NOT** dispose of undiluted chemicals on site. If recycling, replace cap and return clean container to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. **DO NOT** burn empty containers or product.

DIP DISPOSAL

DO NOT dispose of spent dip on site. Spent dip waste must be transported to a facility that can lawfully receive it.

SAFETY DIRECTIONS

Poisonous if absorbed by skin contact or inhaled or swallowed. Repeated minor exposure may have a cumulative poisoning effect. Will damage eyes and skin. Will irritate the nose and throat. Avoid contact with eyes and skin. **DO NOT** inhale vapour or spray mist. When opening the container, preparing spray and using the prepared spray [open cab] wear chemical resistant clothing buttoned to the neck and wrist and washable hat, elbow-length chemical resistant gloves and full facepiece respirator with combined dust and gas cartridge. When using the prepared spray [closed cab fitted with charcoal filters] wear cotton overalls buttoned to the neck and wrist (or equivalent clothing). After use and before eating drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves and respirator (if rubber, wash with detergent and warm water) and contaminated clothing.

FIRST AID

If swallowed, splashed on skin or in eyes, or inhaled, contact a Poisons Information Centre (Phone Australia 13 11 26) or doctor at once. Remove any contaminated clothing and wash skin thoroughly. If swallowed, activated charcoal may be advised. Give atropine if instructed.
