

## STORAGE AND DISPOSAL

The method of disposal of the container depends on the container type. Read the Storage and Disposal instructions on the label that is attached to the container.

Store in the closed, original container in a cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight.

### All other non-refillable containers

Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. **DO NOT** dispose of undiluted chemical on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. Empty containers and product should not be burnt. **DO NOT** re-use empty container for any other purpose.

### Envirodrum - Micro Matic Valve (110L)

Store the original sealed Envirodrum in a cool, well ventilated area. **DO NOT** store for prolonged periods in direct sunlight. **DO NOT** tamper with the Micro Matic valve or the security seal. **DO NOT** contaminate the Envirodrum with water or any other foreign matter. After each use of the product please ensure that the Micro Matic coupler, delivery system and hoses are disconnected, triple rinsed with clean water and drained accordingly. When the contents of the Envirodrum have been used, please return the empty Envirodrum to the point of purchase.

### SAFETY DIRECTIONS

Product is poisonous if absorbed by skin contact or swallowed. Avoid contact with eyes and skin. **DO NOT** inhale spray mist. When opening the container, preparing spray and using the prepared spray wear cotton overalls buttoned to the neck and wrist and a washable hat and elbow-length PVC gloves and face shield or goggles. If product on skin, immediately wash area with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves and face shield or goggles and contaminated clothing.

### FIRST AID

If swallowed, splashed on skin or in eyes, or inhaled, contact a Poisons Information Centre (Phone Australia 131126; New Zealand 0800 764 766) or a doctor at once. Remove any contaminated clothing and wash skin thoroughly. If swallowed, activated charcoal may be advised. Give atropine if instructed.

**DIRECTIONS FOR USE****In WA only – for use by Bulk Handling Authorities only.**

<b>Crop</b>	<b>Pest</b>	<b>Rate</b>	<b>Critical Comments</b>
<b>Stored Grain (except Rice &amp; Malting Barley)</b>	Rice Weevil, Granary Weevil, Rust-Red Flour Beetle, Confused Flour Beetle, Saw-toothed Grain Beetle, Tropical Warehouse Moth, Lesser Grain Borer (susceptible strains)  Maize Weevil – <b><u>Qld only</u></b>	1L/100L water – provides up to 3 months protection.  2L/100L water – provides from 3-9 months protection.	Apply 1L of diluted spray per tonne of grain. Apply through standard grain spraying machinery. The output of spray through the nozzle must be regulated according to the flow of grain.
	Lesser Grain Borer (multi-resistant strains)	1L/100L water + BRM* Grain Protectant, Diacon* S IGR Grain Protector or Sumithrin* Synergised Grain Protectant at the recommended rate. Provides up to 3 months protection.  2L/100L water + BRM* Grain Protectant, Diacon* S IGR Grain Protector or Sumithrin* Synergised Grain Protectant at the recommended rate. Provides from to 3-9 months protection.	

Crop	Pest	Rate	Critical Comments
<b>Stored Lupins - Vic only</b>	Rice Weevil, Granary Weevil, Rust-Red Flour Beetle, Confused Flour Beetle, Saw-toothed Grain Beetle, Tropical Warehouse Moth, Lesser Grain Borer (susceptible strains)	1L/100L water – for up to 3 months protection.  2L/100L water – for up to 6 months protection.	Apply 1L of diluted spray per tonne of grain.
<b>Surface of buildings, bins and machinery used for grain storage except for rice storage</b>	Warehouse Beetle, Rice Weevil, Granary Weevil, Rust-Red Flour Beetle, Saw-toothed Grain Beetle, Tropical Warehouse Moth, Lesser Grain Borer (susceptible strains)  Maize Weevil – <u>Qld only</u>	20 mL/1L water	Spray infested areas to point of run-off. 5L of diluted spray will treat approximately 100m <sup>2</sup> . Repeat application at 6-week intervals when required.

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

**WITHHOLDING PERIOD: NOT REQUIRED WHEN USED AS DIRECTED.**

## **Export of Treated Produce**

Users should note that suitable MRLs or import tolerances may not have been established in all markets for produce treated with Imtrade Diplomat 500 EC Grain Protectant. Before treating grain for export, please check with Imtrade Australia Pty Ltd for the latest information on MRLs and import tolerances.

## **GENERAL INSTRUCTIONS**

### **Mixing**

Slowly add the required amount of Imtrade Diplomat 500 EC Grain Protectant to the water in the tank. Use clean water only. The special formulation of Imtrade Diplomat 500 EC Grain Protectant ensures rapid mixing.

### **Application**

Uniform application through the grain is essential for maximum efficacy. It is essential to ensure that the grain is free from infestation and of sufficiently low moisture content at intake, i.e. less than 12% moisture content and a storage temperature below 27°C.

## **RESISTANT WEEDS WARNING**

### **GROUP 1B INSECTICIDE**

For insecticide resistance management Imtrade Diplomat 500 EC Grain Protectant is a Group **1B** Insecticide. Some naturally occurring insect biotypes resistant to Imtrade Diplomat 500 EC Grain Protectant and other Group **1B** Insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Diplomat Insecticide or other Group **1B** Insecticides are used repeatedly. The effectiveness of Imtrade Diplomat 500 EC Grain Protectant on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, Imtrade Australia Pty Ltd accepts no liability for any losses that may result from the failure of Imtrade Diplomat 500 EC Grain Protectant to control resistant insects.

Imtrade Diplomat 500 EC Grain Protectant may be subject to specific resistance management strategies. For further information contact your local supplier, Imtrade Australia Pty Ltd representative or local agricultural department agronomist.

## **PRECAUTION**

**DO NOT** contaminate food, feed or domestic water supplies.

## **PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT**

**Dangerous to fish and other aquatic organisms.**

**DO NOT** contaminate streams, rivers or waterways with the chemical or used containers.

## STORAGE AND DISPOSAL

**The method of disposal of the container depends on the container type. Read the Storage and Disposal instructions on the label that is attached to the container.**

Store in the closed, original container in a dry, cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight.

### **1L only**

Rinse container before disposal. Add rinsings to spray tank. **DO NOT** dispose of undiluted chemical on-site. Dispose of at an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. **DO NOT** burn empty containers or product. **DO NOT** re-use empty container for any other purpose.

### **All other non-refillable containers**

Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. **DO NOT** dispose of undiluted chemical on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. Empty containers and product should not be burnt. **DO NOT** re-use empty container for any other purpose.

### **Envirodrum - Micro Matic Valve (110L)**

Store the original sealed Envirodrum in a cool, well ventilated area. **DO NOT** store for prolonged periods in direct sunlight. **DO NOT** tamper with the Micro Matic valve or the security seal. **DO NOT** contaminate the Envirodrum with water or any other foreign matter. After each use of the product please ensure that the Micro Matic coupler, delivery system and hoses are disconnected, triple rinsed with clean water and drained accordingly. When the contents of the Envirodrum have been used, please return the empty Envirodrum to the point of purchase.

## SAFETY DIRECTIONS

Product is poisonous if absorbed by skin contact or swallowed. Avoid contact with eyes and skin. **DO NOT** inhale spray mist. When opening the container, preparing spray and using the prepared spray wear cotton overalls buttoned to the neck and wrist and a washable hat and elbow-length PVC gloves and face shield or goggles. If product on skin, immediately wash area with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water.
