

STORAGE AND DISPOSAL
KEEP OUT OF REACH OF CHILDREN.

Store in the closed, original container in a cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight.

1L and above (unless otherwise stated)

Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. **DO NOT** dispose of undiluted chemical on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. Empty containers and product should not be burnt. **DO NOT** re-use empty container for any other purpose.

Envirodrum 110L Mini Bulk Returnable Container only

Store the original sealed Envirodrum in a cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight. **DO NOT** tamper with the Micro Matic valve or the security seal. **DO NOT** contaminate the Envirodrum with water or any foreign matter. After each use of the product, please ensure that the Micro Matic coupler, delivery system and hoses are disconnected, triple rinsed with clean water and drained accordingly. When the contents of the Envirodrum have been used, please return the empty Envirodrum to the point of purchase.

Refillable Containers (1000L only)

Store in the closed original container in a cool well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight. Empty contents fully into application equipment. Close all valves and return to point of sale for refill or storage.

SAFETY DIRECTIONS

Avoid all eye and skin contact. Wear rubber/PVC gloves, goggles and overalls.

READ SAFETY DIRECTIONS BEFORE OPENING OR USING

IMTRADE
WETTER 1000

ACTIVE CONSTITUENT: 1000 g/L ALCOHOL ALKOXYLATE

Biodegradable wetting and spreading agent. A spray activator for use with knockdown and residual herbicides. Non-flammable, low toxicity.

IMPORTANT: Read the attached Leaflet before use.

CONTENTS
1L-1000L

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (*Phone Australia 131 126*). Remove from contaminated area and keep at rest until fully recovered. If skin contact occurs, remove any contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

Refer to attached Leaflet for additional GHS Hazard & Precautionary Statements

DIRECTIONS FOR USE

Situation	State	Application Rate	Critical Comments
General weedkilling sprays High vol. Power spray Low vol. Boom spray Misting machines Knapsacks	All States	10 mL/100L 40 mL/100L 5 mL/5L 2 mL/15L	
Reglone, High vol. Power spray, Boom spray Knapsack	All States	120 mL/100L 120 mL/100L 20 mL/15L	For maximum efficiency of this herbicide, a higher rate of Imtrade Wetter 1000 must be used to ensure even and thorough coverage of plant foliage and to increase absorption. This is particularly important for killing grasses and tall, dense vegetation.
Imtrade Paraquat 250 Herbicide Imtrade Spraykill 250 Herbicide	All States	60 mL/100L 120 mL/100L	These formulations contain wetting agents and Imtrade Wetter 1000 is only required if dilution rates are excessive, i.e. low chemical rates and high water rates per ha. Consult product labels before using.
Imtrade Diquat 200 Non-Residual Herbicide	All States	200 mL/100L	If volume of water applied when using 3 - 4L Imtrade Diquat 200 Non-Residual Herbicide exceeds 200L/ha.
		100 mL/100L	When using Imtrade Diquat 200 Non-Residual Herbicide at 300 – 400 mL/100L.
Fusilade*	All States	200 mL/100L	Use this rate unless otherwise specified on the Fusilade* label.
		120 mL/100L	Some vegetables and ornamentals.
Imtrade Diclofop-Methyl 375 Selective Herbicide	WA only	250 mL/100L	Use Imtrade Wetter 1000 at 250 mL when mixing Imtrade Diclofop-Methyl 375 Selective Herbicide with Homyx*, Tigrex* or MCPA LVE. DO NOT add Imtrade Wetter 1000 with mixtures of Diclofop-Methyl and Linuron, Bromoxynil or Methabenzthiazuron.

Situation	State	Application Rate	Critical Comments
Soil Residual Herbicides e.g. Imtrade Diuron 900 WG Herbicide, Imtrade Atrazine 900 WG Herbicide	All States	100-400 mL/100L	When applying soil active herbicides such as Imtrade Diuron 900 WG Herbicide or Atrazine 900 WG to standing weeds, add Imtrade Wetter 1000 to thoroughly wet foliage. Consult product labels for individual recommendations.
Fire Fighting Water Tanker, Knapsack	All States	5 mL/100L 2 mL/15L	In this field, Imtrade Wetter 1000 has the advantages of less weight to carry compared with less concentrated surfactants and of being non-flammable. It increases the wetting power of water, which assists in quick control and mopping up of fires. It is of particular value where water may not be readily available as a less drenching spray is needed and a tankful will cover a bigger area.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

Imtrade Wetter 1000 is a biodegradable spray additive containing 100% w/v non-ionic surfactant and is suitable for use with all types of weed killers. It increases herbicide activity by better wetting and absorption and improved spray coverage. Imtrade Wetter 1000 can be used with both acid and alkaline sprays and mixes easily with all types of water.

Weedkilling Sprays

Imtrade Wetter 1000 should be added to all herbicide sprays to increase their efficiency except those, which are known to contain adequate wetting agent in the formulation. Wetter should be added only where directed on individual labels, as use with selective herbicides outside label directions may reduce crop selectivity. For foliar active herbicides, spray to the point where the leaves and stems are just wet. Spraying beyond this encourages runoff and subsequent loss of spray chemicals. In general, use a high volume spray for soil residual herbicides. When spraying waxy or hairy leafed plants, which are normally hard to wet, increased activity will be obtained by increasing the rate of Imtrade Wetter 1000. It is important that the leaves and stems are thoroughly wetted for foliar herbicides to work effectively particularly when treating dense tall vegetation.

Mixing

Imtrade Wetter 1000 mixes easily and quickly with water and should be added direct to the spray tank. It should not be added direct to undiluted sprays containing wetting agents.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT TOXIC TO FISH.

Although rapidly biodegradable, contamination of streams, rivers or waterways should be avoided.

STORAGE AND DISPOSAL

The method of disposal of the container depends on the container type. Read the Storage and Disposal instructions on the label that is attached to the container.

Keep out of reach of children.

Store in the closed, original container in a cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight.

1L only

Rinse container before disposal. Add rinsings to spray tank. **DO NOT** dispose of undiluted chemical on-site. Dispose of at an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. **DO NOT** burn empty containers or product. **DO NOT** re-use empty container for any other purpose.

1L and above (unless otherwise stated)

Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. **DO NOT** dispose of undiluted chemical on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. Empty containers and product should not be burnt. **DO NOT** re-use empty container for any other purpose.

Envirodrum 110L Mini Bulk Returnable Container only

Store the original sealed Envirodrum in a cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight. **DO NOT** tamper with the Micro Matic valve or the security seal. **DO NOT** contaminate the Envirodrum with water or any foreign matter. After each use of the product, please ensure that the Micro Matic coupler, delivery system and hoses are disconnected, triple rinsed with clean water and drained accordingly. When the contents of the Envirodrum have been used, please return the empty Envirodrum to the point of purchase.

Refillable Containers (1000L only)

Store in the closed original container in a cool well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight. Empty contents fully into application equipment. Close all valves and return to point of sale for refill or storage.

SAFETY DIRECTIONS

Avoid all eye and skin contact. Wear rubber/PVC gloves, goggles and overalls.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 131 126). Remove from contaminated area and keep at rest until fully recovered. If skin contact occurs, remove any contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

Additional GHS Hazard & Precautionary Statements

●Harmful if swallowed; ●Causes skin irritation; ●Causes serious eye damage; ●**DO NOT** get on clothing; ●Wash contacted areas thoroughly after handling; ●**DO NOT** eat, drink or smoke when using this product; ●Take off contaminated clothing and wash before reuse; ●**IF SWALLOWED:** Rinse mouth. **DO NOT** induce vomiting; ●If skin irritation occurs: Get medical advice; ●If eye irritation persists: Get medical advice; ●Suitable extinguishing media are carbon dioxide, dry chemical, foam, water fog. Avoid the use of water jets. ●Store in a dry place.

SAFETY DATA SHEET
