

# BROADLEAF WEEDS MAKING YOU CRY?

**ICONIX**<sup>®</sup>  
500 EC

**NEW**  
WEED INCLUDED  
Common Evening  
Primrose

## DOUBLE THE STRENGTH, DOUBLE THE RELIABILITY

- A higher loading formulation for Onion growers that reduces the amount of product handled and stored by growers.
- Ioxynil is trusted by Onion growers to provide selective control of a wide range of broadleaf weeds.
- Can be used early in Onion development from 3 leaf stage, reducing weed competition significantly.
- Compatible with other Imtrade products such as Linuron 800 & Oxen to increase weed spectrum.
- Iconix<sup>®</sup> is manufactured in Australia by Imtrade, 100% Australian owned and operated.
