- Imtrade promote best practice for insect resistance management. It is advised to rotate each year between D-Ploy® / D-Ploy® Plus with a Spinosad based product such as Designate®
- D-Ploy® Plus is the only grain protectant available which does not require a mixing partner
- **NEVER** apply Diplomat® to Malt Barley or Rice
- D-Ploy® users **MUST** complete D-Ploy® online training or have completed training online for other deltamethrin grain protectants
- Diplomat®, D-Ploy® & Designate® have no WHP
- When mixed with Fenitrothion, D-Ploy® & Designate® combinations may carry a 90 day WHP
- Always consult with end-user or marketer to ensure selected products are accepted by the intended market

® Diplomat, D-Ploy, D-Ploy Plus & Designate are registered Trademarks of Imtrade Australia Pty Ltd
